

Shut the box!

A nursery favourite! Can be played with colours, numbers, shapes, animals - anything you like! Print out, or hand draw the grid below (one per player). To the bottom section add your chosen subject, for example one number per box (make sure not every person playing has the same numbers on).

Cut down the dashed lines, and fold the grid in half along the middle line.

Use a dice, or some cards with the same colours, numbers, shapes or animals on. Take it in turns to roll the dice, or pick up a card at random. If you have the corresponding item on your board you can shut the box! - you might need to use something small to hold the box shut, especially if you're using paper (1p coin for example). The winner is the first to shut all the boxes!
