

Bingo!

A nursery favourite!

What to do:

This game can be played with colours, numbers, shapes, animals - anything you like! Print out, or hand draw the grid below (one per player). Add your chosen subject, for example one number per box (make sure every player has different numbers on their board.) Write the corresponding numbers or whatever you are choosing to play with onto pieces of paper and mix them up. Choose one piece of paper at a time. If you have the same number onto the board, place a coin on top to cover it up. The first to cover all of their board is the winner and shouts, "Bingo".

What skills will your child develop:

- *Number/shape/colour recognition*
- *Turn taking*
