

The Colour Song!

To the tune 'If you're happy and you know it clap your hands'.

With your child make a collection of different coloured objects from around the house. Take turns to choose a coloured object out of the bag and sing the corresponding verse to reinforce colour recognition and act out the action.

If you see something red nod your head,

If you see something red nod your head,

If you see something red, if you see something red, if you see something red nod your head.

If you see something blue tap your shoe...

If you see something green bow to the queen...

If you see something yellow wave to a fellow...

If you see something orange peel an orange...

If you see something purple draw a circle...

If you see something white have a fright...

If you see something black tap your back...

If you see something pink have a drink...

If you see something brown sit right down...
