I Spy Tray Game

For this activity you will need:

A tray or something similar

A variety of toys and objects from around the house

Collect a variety of objects to place on the tray. Then play a classic game of eye-spy with the objects. Support your child by encouraging them to listen carefully to the letter sound and the initial sounds of the objects and repeat the letter sounds and names of objects.

This activity may be difficult for children at first, so to begin with try two or three objects that begin with an easily identifiable letter sounds such as m, a, t, s, p. Once they understand how to play and become more aware of initial sounds you can gradually make it more challenging.
