

Scavenger Hunt

What you will need:

- A piece of paper with pictures and the words of the items to find
- A pencil to mark off when found
- Bucket/Bag

What to do

Create a list of things to find, draw the picture and write the word next to it or you could print these off on a computer if you have access to a printer within the home (some examples are shown underneath in the pictures) and then off you go to find the different items ticking them off when you find them. You can collect the items in a bucket or bag if they will fit but remember to free any creatures you may find. You could create a range of different hunts; these could be a nature scavenger hunt, colour scavenger hunt, a number scavenger hunt, an indoor scavenger hunt or a scavenger hunt that all begin with the same letter for example find things that start with the letter 'b' items could include ball, boat, biscuit, banana, button, bracelet etc.
