

## Story bag/box

### What you will need:

- A book
- A bag or box
- Items related to the story

### What to do

First you will need to pick a story. Then select a bag or a box and then fill this up with items related to the story, the possibilities are endless. Here is an example, the story book is 'Dear Zoo' within the bag or box add a copy of the book as well as plastic, cuddly or puppet toys of each of the animals within the book. You may also add some little gift bags or boxes so the children can put the animals in these. You can talk about each of the animals, what noise do they make, how do they move, can you move like a snake, etc. To then extend this story you could write your own letters to the zoo or make masks of different animals. You could also then have a look at other animals that belong in the zoo.

Have a go at making a story bag or box with your favourite stories... We look forward to hearing all about them.
