Ripe Strawberry Acti

Ordering Fruit

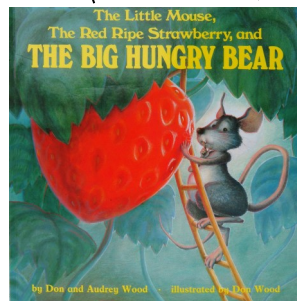

Put out a selection of fruits. Ask your child to name the fruits. Then talk about the shapes and sizes. Then put the fruit in order from the biggest to the smallest or from the smallest to the biggest. Ask which is the biggest? Which is the smallest? Can you find a fruit bigger than the? Can you find a fruit smaller than the ...?

Counting with objects

What you need: paper, red pencil/crayon, set of up to 10 objects.

With your child you could create your own strawberry using paper and red coloured pens. Ask your child to pick a number between 1 and 5, then put that number of objects onto your strawberry.

Extend by using larger numbers

Sound Hunt

Look around inside or outdoors for objects beginning with **s** as in strawberry or **m** as in mouse or **b** as in bear etc.

How many did you find and can you name the object?

Examples

- b for bed, bird or ball
- s for sandwich, stick or sock
- m for money, mud or milk.

Cutting Fruit

Have a selection of fruit.

With your child cut the fruit into small pieces.

Make a repeating pattern for example, strawberry, banana, apple, strawberry, banana, apple etc.

You could make a fruit kebab or, simply place the fruit on your plate and eat it Yum, yum!
