

The Smartest Giant in Town

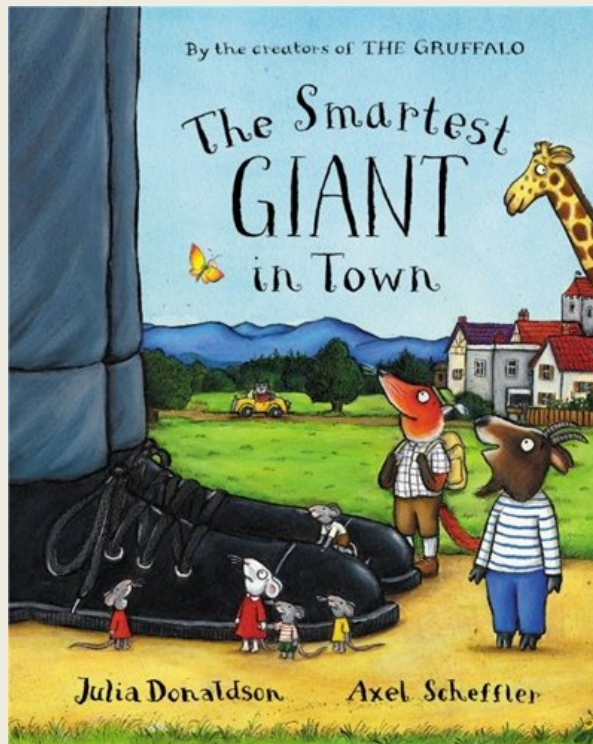

You can listen to the story over on YouTube:
<https://www.youtube.com/watch?v=cfiPrA8E3qE>

Matching the socks!

Can you get a collection of socks of all different varieties, big, small and different patterns and colours from around the home and get the children to match them into pairs? You could also sort them into big and small or colours and patterns.

Look together at the Giants tie. Ask your child to describe the tie (the colours and pattern). Have a go at drawing his tie with 2 or 3 different colours? Can they make any other patterns? They could stick the tie that they have made to the giant they are making ready for the re-tell of the story!

The Smartest Giant in town is very kind and caring to all of his friends, can you ask your child what they could do as a 'Smart Giant moment' today to be kind! For example do something helpful for a family member.

Make your own Giant-

Out of resources from around the home (e.g. pillows, a shirt and tie or even a necklace and some trousers) make your own giant. Once you have your own Smart Giant you can encourage your child to re-tell the story to others in your home.

The giant gave his friends his shoe as a house for them, which was very kind.
