

Caterpillar and butterfly home learning activities.

Toilet roll butterfly –

What you will need; Toilet roll, 2 pipe cleaners or straws, glue/tape and paint.

Cut a toilet roll into 4 and then decorate it with paint, glitter, sequins etc to make them look like butterfly wings.

Once they have dried stick all 4 of them together with pipe cleaners in the middle to create 2 antennae. If you don't have pipe cleaners, you could use some straws!

You could add some ribbon, thread or string to hang them up at your window or maybe from a tree in the garden

Pasta letters -

What you need; Pasta bows and tubes, food colouring and paper.

You can use plain pasta or dye it with food colouring. To do this you will need to soak the pasta in different colours of food colouring, then let it dry.

Arrange your pasta in the shape of your name as shown in picture. Once you have 'written' your name you could write the names of your family or even just some letters you know. If you want you could glue the pasta onto your paper.

If you haven't got pasta bows you can use any pasta.... the bows look like butterflies.
